

# ***CLIMATE JUSTICE EXHIBITION***

**Droughts, floods, sea level rises and unpredictable weather events affect those least responsible for the climate crisis the most – the finance promised them is overdue**

**Global solidarity is vital to establish just solutions so no-one is left behind. There can be no climate justice without social and racial justice**

We are holding this exhibition to coincide with the United Nations Climate Change conference (COP26) in Glasgow in November 2021.

Addressing issues of peace and justice we highlight the contribution of the military (nuclear and non-nuclear) to the climate crisis: an issue currently ignored in international climate agreements and public debate. In seeking solutions, we examine the very meaning of security and whose security is most at stake.

The solutions we explore are people-centred and nature-based. We invite you to engage with them. We offer suggestions of actions you can take and provide links to websites you can use.

**We need to act now to protect our fragile planet if it is to continue to provide for us. Governments are not taking the necessary responsibility**

The exhibition is being shown at several locations around the UK and can also be seen on our website [wilpf.org.uk/climate-exhibition](http://wilpf.org.uk/climate-exhibition). For the latest information on where to find the exhibition or if you would like to host it please contact us at [climate-exhibition@wilpf.org.uk](mailto:climate-exhibition@wilpf.org.uk)

Imagine ...

**A world with no nuclear weapons has the money to eradicate poverty** Support the [#nuclearban](https://www.icanw.org) [icanw.org](https://www.icanw.org)

**The protection of human rights and the rights of the earth are intimately linked: change the rules** Support the movement for an [International Law against Ecocide](https://www.stopecocide.org) [stopecocide.earth](https://www.stopecocide.org)

**The global temperature is limited to 1.5 degrees**

**Resources that now go to the military, go to address the climate crisis instead** See [XR Peace - xrpeace.org](https://www.xrpeace.org)

**Governments admit to military carbon emissions and transparently report on ways they will be cut** See the campaigns of [Scientists for Global Responsibility sgr.org.uk](https://www.sgr.org.uk)

**Renewable energy sources are fully funded, fossil fuels stay in the ground and nuclear power is phased out**  
See [beyondnuclearinternational.org](https://www.beyondnuclearinternational.org)

**Allow people the security and stamina to adapt to climate change** See [citizensincome.org](https://www.citizensincome.org)

**Displaced climate refugees are welcomed** See the campaigns of [globaljustice.org.uk/our-campaigns/migration](https://www.globaljustice.org.uk/our-campaigns/migration) and disaster reduction campaigns of the World Meteorological Organisation: [public.wmo.int/en](https://www.public.wmo.int/en). and the work of [cityofsanctuary.org](https://www.cityofsanctuary.org)

**The Exhibition is currently on show at:**

**The Women's International League for Peace and Freedom (WILPF)** was established over 100 years ago by women determined to promote peace and address the root causes of war and conflict. Now WILPF is a global organisation which recognises the close relationship between the environment, climate change, women's rights and peace.  
**WILPF UK has created this Exhibition**
